What is a Lampe Berger for?

The functions of a Lampe Berger :

- DESTRUCTION OF ODORS
- PURIFICATION OF THE AIR
- FRAGRANCING

How does it work?

The three functions are performed simultaneously within the burner :

The air is purified in a lower temperature zone at the centre of the burner and the perfumes evaporates.

The mixing of the air and the movement from convection due to the presence of hot points on the burner ensure that odors are destroyed in a large volume of air.
